communities
in Thurrock

Your local Community Forum invites you to

Nudge Your Neighbours!

Help to spread the message about forums

As someone who already attends your local Community Forum meetings, you know what benefits they bring to the local area.

What about spreading the word to people who live nearby, friends and family—the more people get involved with the forum the stronger the voice of local people becomes.

Imagine, if everyone who attends a forum meeting introduced just one person, attendance would double straight away!

Please think about it, with all the development plans and changes taking place in Thurrock, we really do need people to get involved.

The best way to spread the word is by talking to people, however you may not know your neighbours very well or perhaps you don't see them that often.

Why not fill in the tear off slip with the date of the next meeting. Then just pop it through their door.

Your neighbours can then make up their own minds about attending.

You do not have to put your contact details on, the back of the slip has contact details for ngage and we will pass on any enquiries to the forum.

Thanks for your help and support, together we can help forums to grow

Dear Neighbour,

You are invited to come along to the next meeting of the
Community Forum on

At.....

The forum is a voluntary, non-political group, run by local people for local people. It brings together people living and working in the area to have a say in decisions about local issues.

It receives annual funding from Thurrock Council and by getting involved, you can help decide what the forum uses this money for, to benefit the local community.

Forum meetings are also attended by the local police team and elected ward councillors. This is a two way conversation, residents can raise issues directly with them and the agencies use the forum as a platform to consult with the residents.

Forum meetings are formal, but friendly. Everyone is welcome. Please come along and find out more for yourself.

This card has been put through your door by a local resident who already attends their local community forum. We are currently trying to raise awareness of the forums and encourage more local residents to come along.

If you are interested in finding out more, but are not able to attend the meeting, then please contact
